Commissioner for Patents

The amendment filed 1-05-2005 is considered non-responsive, as the amendment is in non-compliant with 37 CFR 1.121.

Specifically, the following discrepancies were noted:

Specification: The Applicant has amended the specification by "sentence". Note that 37 CFR 1.121 requires that amendments to the specification be made by paragraph, "section", or "substitute specification", and not by sentence. Also, the Applicant is required to indicate what was changed by underlining new wording and indicating deleted wording by "strikethroughs", or double brackets. This was not done. Additionally, the substitute abstract should appear on a separate sheet.

Claims: The Applicant failed to put a "claim status identifier" in front of each claim. Although all original claims were canceled, and all new claims were added, each new claim must be preceded by the word "(newly added)" in parenthesis to be in compliance with 37 CFR 1.121. For the canceled claims, the Applicant should indicate cancellation of claims by 1-20 (canceled).

Applicant is given a one month period for reply.
